Navistar Receives Order from Boyd Bros. Transportation for 325 EPA 2010 International ProStar+ Trucks

Recognized as “Best Fleet to Drive For,” Boyd Bros. Selects the Ultimate Drivers Truck for its Fleet—the 2010 International ProStar®+

WARRENVILLE, Ill. (May 20, 2010) – Navistar, Inc. announced today that it has received an order from Boyd Bros. Transportation, Inc. for 325 International® ProStar® + tractors equipped with EPA 2010 Advanced EGR (exhaust gas recirculation) MaxxForce® 13 engines.

Headquartered in Clayton, Ala., Boyd Bros. is a leading flatbed carrier with more than 1,000 trucks in its fleet, specializing in the time-sensitive transportation of steel products and building materials. Boyd Bros. is well regarded for the treatment of its drivers and was recently named the “2010 Best Fleet to Drive For” by the Truckload Carriers Association (TCA) and CarriersEdge.

“We’re proud to win new business from Boyd Bros. and we look forward to delivering the ProStar+ to their fleet,” said Jim Hebe, senior vice president, North American sales operations, Navistar. “Boyd Bros. prides itself on driver satisfaction and the ProStar+ delivers a winning combination of driver-inspired comfort features and outstanding fuel economy.”

Boyd Bros. currently operates more than 60 International ProStar trucks with EPA 2007 MaxxForce 13 engines and has logged nearly 8 million miles on these trucks.

“We’ve had great results with the existing ProStar tractors in our fleet and look forward to even more success with the ProStar+,” said Chris Cooper, chief operating officer, Boyd Bros. “From the significant fuel economy advantages we’ve realized, to the appreciation our drivers have for the quiet, comfortable

ride, we're excited to reward our drivers with the ProStar+."

Further demonstrating its commitment to its drivers, all of the ProStar+ trucks delivered to Boyd Bros. will be equipped with Navistar's factory-installed MaxxPower® battery-powered HVAC system (heating, ventilation and air conditioning). The MaxxPower HVAC system is an industry-leading highly efficient anti-idle solution that provides heating and cooling in the sleeper compartment in accordance with Truck Maintenance Council (TMC) requirements.

"Boyd Bros. has always listened to our drivers and we strive to make improvements that will have a positive impact on their lives," added Cooper. "As we take delivery of the new ProStar+ over the next several years, we'll be providing our drivers with the most fuel-efficient and driver-friendly trucks on the road today."

"With the ProStar+, we challenged ourselves to make the best even better," added Hebe. "With aerodynamic and weight-saving enhancements, the re-engineered and highly functional interior and the no-hassle emissions technology of our MaxxForce Advanced EGR engines, the new ProStar+ provides an unparalleled level of driver satisfaction, while delivering the lowest cost of ownership in the industry."

About Boyd Bros. Transportation

Boyd Bros. Transportation, Inc. and its subsidiaries are flatbed carriers providing safe, reliable, on-time service throughout the continental United States, Mexico and Canada, transporting a variety of products, primarily steel and building products. The company is headquartered in Clayton, Alabama and operates regional and satellite facilities, predominantly in the eastern two-thirds of the United States. For more information, visit www.boydbros.com.

About TCA

TCA (Truckload Carriers Association) is the only national trade association whose collective sole focus is the truckload segment of the motor carrier industry. The association represents dry van, refrigerated, flatbed, and intermodal container carriers operating in the 48 contiguous states, as well as Alaska, Mexico, and Canada. Representing operators of more than 200,000 trucks, which collectively produce annual revenue of more than $20 billion, TCA is an organization tailored to specific truckload carrier needs.

About CarriersEdge

CarriersEdge is the leading provider of online driver quality improvement solutions. Comprised of online testing, training and reporting tools, along with expert business analysis and consulting services, CarriersEdge allows trucking companies to improve business performance by improving driver quality, and do so without the compromises required by traditional alternatives.
